Business analyst with 4+ years of analytics experience across finance, automotive and audit. At Lecturio, I own the shared Power BI finance model used by the CFO and CEO, build revenue controls and sales-pipeline reporting, and automate recurring analysis. I combine hands-on data work with clear business reporting and practical AI enablement.

EXPERIENCE

Senior Business Analyst

Sep 2023 - Present

Lecturio GmbH

Leipzig / Berlin

- Automated monthly-report preparation with Power BI (DAX, Power Query), Python and n8n, reducing manual preparation for one report from about **10 hours to 5 minutes**.
- Presented variance analysis, forecasts and budget-versus-actual comparisons to the CFO and CEO from one shared Power BI data model, so every team quoted the same numbers.
- Developed the Power BI sales dashboard that tracks opportunities from open to closed-won and flags deals past their close date, giving Sales and Finance one pipeline view.
- Designed a recurring control reconciling Salesforce bookings against accounting records, surfacing **six-figure differences** for Finance and audit review.
- Owned the Finance team's automation and AI remit: automated recurring Excel analyses with reusable Claude Code tools, introduced Claude skills and Claude in Excel, and ran weekly AI sessions for non-technical colleagues.
- Built **dbt history tables on Athena** that version Salesforce stage changes, exposing time in stage and conversion rates to support the revenue forecast used by the CFO and CEO.

Working Student

Sep 2022 - Aug 2023

Data Analytics / Data Science

CARIAD SE (Volkswagen Group)

Berlin

- Developed Power BI dashboards for a Volkswagen sales-incentive optimization project, used by data scientists, engineers and management.
- Designed the Power BI and SQL monitoring layer around a regional car-pricing model, helping the data science team track outputs and management compare incentives against sales across regions.
- Modeled reusable SQL views in Amazon Athena, tuned to keep dashboards fast.

Rushikesh Pawar

Senior Business Analyst | Finance Analytics & BI

EXPERIENCE - CONTINUED

Working Student - Data Analytics

Mar 2022 - Aug 2022

KPMG AG Wirtschaftsprüfungsgesellschaft

Berlin

- Developed and maintained Qlik Sense dashboards for audit delivery within Scrum sprint cycles.
- Analyzed complex SAP authorization datasets in Microsoft SQL Server, producing compliance and audit insights for engagement teams.

Inventory Controller

Nov 2019 - May 2021

S.M. Auto Engineering

Pune, India

- Analyzed spare-parts spending in Excel and identified cost reductions for management, saving **INR 200,000**.

SKILLS

Financial reporting and planning

Forecasting and budgeting, budget-vs-actual analysis, KPI reporting, pipeline analytics, dashboard design, process automation.

BI and analysis tools

Power BI (DAX, Power Query, data modeling), Excel, SQL (PostgreSQL, MySQL, SQL Server, Athena, BigQuery), Python (pandas, automation), dbt (models, tests, snapshots).

Systems and AI

Salesforce (Sales Cloud, Service Cloud), n8n (workflow automation), Claude Code (AI-assisted analysis, HTML reporting), LLM API.

EDUCATION

Master of Business Administration and Engineering (MBA&E)

Oct 2021 - Oct 2023

HTW Berlin - Hochschule für Technik und Wirtschaft Berlin

Bachelor of Mechanical Engineering (B.Eng.)

Aug 2015 - Aug 2019

Savitribai Phule Pune University, India

PROFESSIONAL DEVELOPMENT

- Google Data Analytics Professional Certificate (Coursera)
- Master Snowflake & Cloud Data Warehouse from the Ground Up (Udemy)
- Runner-up, Onyx Data Challenge - Spotify Data Visualization
